

About me

I have over 7 years of experience working across top-tier corporate firms and branding agencies like McKinsey, HSBC, and Landor. Expert in transforming complex data into clean visual stories, building functional brand-adherent templates and leveraging VBA to automate workflows. I enjoy collaborating to create a positive workplace and working toward shared goals. I have a deep love for sports, which fuels my competitive spirit and drives my hunger to win.

Work Experience	Landor Lead Presenatation Designer (Jun 2025 - Present) - Design high-stakes pitch decks and creative presentations for major global brands like Meta, Coke, Nestlé, and LillyDirect. - Built a master presentation template for Abbott that is now used by their teams globally, balancing strict brand guidelines with a fresh, creative look. - Coded a custom PowerPoint plugin using VBA to automate repetitive tasks, saving hours of design time for the broader team.
	HSBC Presentation Designer (Nov 2022 - Nov 2024) - Designed posters for Global Banking and managed an icon gallery - Developed interactive presentations with animation - Created presentations, newsletters and internal websites for the CEO, Business Head, and MD - Designed custom PPT templates for different clients - Streamlined workflows to meet tight deadlines for global projects
	Mckinsey & Co Presentation Designer (Sep 2018 - Apr 2024) - Created presentations for senior leadership, including Partners and Directors - Trained junior designers to become independent contributors - Designed social media posts, brochures, newsletters, and illustrations

- Core Expertise
- Presentation Design:** Visual storytelling, making complex data clean, layout design, and building functional templates.
 - Branding & Strategy:** Keeping designs consistent with brand guidelines while keeping them fresh and creative.
 - Web Design & UI/UX:** Designing user-friendly interfaces and building functional websites (built 20+ custom sites using Cursor AI).
 - Automation & Coding:** Using VBA to write macros and build custom PowerPoint tools that speed up workflows.
